

## AWS Cloud Services

Everything MeJuvante offers on AWS Marketplace, at a glance.

- 01 AWS Managed Services — 24/7 Cloud Ops, DevOps & FinOps**  
Fully managed AWS for complex, multi-region estates — run, maintained & optimised as one accountable team.
- 02 AWS Migration Services — Assess, Migrate & Modernize**  
Structured, risk-managed migration to AWS by certified engineers, from assessment to post-migration tuning.
- 03 Amazon WorkSpaces Implementation — Secure VDI**  
Replace physical machines or legacy VDI with secure, scalable, centrally managed cloud desktops.
- 04 Red Hat on AWS — RHEL & Ansible**  
Deploy, migrate & operate Red Hat Enterprise Linux on AWS with enterprise-grade automation.
- 05 DevSecOps on AWS — Secure CI/CD Pipelines**  
Shift security left — automated CI/CD with continuous compliance built into the pipeline.
- 06 Red Hat OpenShift (ROSA) Implementation**  
Adopt enterprise Kubernetes on AWS without the burden of managing the clusters yourself.
- 07 AWS FinOps — Cloud Cost Assessment & Optimization**  
Turn cloud cost into a managed, predictable discipline across multi-account environments.
- 08 AI & Automation on AWS — Bedrock & GenAI Agents**  
Production-grade GenAI agents and automated workflows built on Amazon Bedrock.
- 09 ROSA Managed Services — 24/7 OpenShift Operations**  
Ongoing expert operation of your Red Hat OpenShift (ROSA) environment — you build, we maintain.

**10 AWS Managed Ops + FinOps — Built-in Cost Optimization**

MeJuvante - InfoSec, AI, Cloud & Compliance Consulting

AWS Marketplace

24/7 operational support with built-in cost governance, in a single contract.

**11 Golden Workstation Server**

Standardised, fully-configured Windows Server 2022 image — ready to use, no manual setup.

Free trial · from \$0.04/hr
